# SlurrySafe™ pH Reducer

## SlurrySafe AR

*Complete Acid Replacement without the Dangers*

SlurrySafe AR is an eco-friendly and multifunctional safe replacement to traditional toxic and hazardous acids.

### Benefits

- Non-toxic, non-fuming and no VOC's
- 100% biodegradable environmentally friendly organic compound.
- Easy to use, handle, transport, store and will not cause acid burns if it comes in direct contact with skin; maximising employee and user safety.
- Will cause no damage to most building materials when applied and removed correctly. Safe on pumps, pipes, and most metals.
- Can be used diluted or at full strength.
- Available in 1Ltr, 5Ltr, 20Ltr and 1041Ltr (Tote)

### Application Examples

- Concrete cleaner and Etcher
- Grout Haze Remover
- Brick and Grout Cleaner
- Efflorescence and Tile Cleaner
- Masonry Slurry Dissolver
- Diamond Tool and Equipment Cleaner
- Rust Remover off Metals and Concrete
- Grinding Aid to Soften Concrete and Assist with Keeping Grinder Clean
