

Slurry Cart Filtration System

Mobile Slurry Filtration System

The ultimate solution for easy slurry disposal.

PRODUCT OVERVIEW

- The ultimate solution for easy slurry disposal.
- Lightweight and easy to use mobile slurry filtration system.
- Holds up to 50 litres of reclaimed water.
- Specialised container for easy slurry disposal and water filtering.
- Designed for use with SlurrySep Flocculant (sold separately) to separate solids from water.

TECHNICAL SPECIFICATIONS

Product Name	Slurry Cart Filtration System
Product Type	Mobile slurry filtration system
Capacity	Up to 50 litres of reclaimed water
Application	Slurry disposal and water filtration
Process Compatibility	For use with SlurrySep Flocculant (sold separately)
Filtration Method	Solids retained in filter bag while clear water drains out
Mobility	Lightweight wheeled cart for easy transport
Key Components	Filter bag basket, secure holding band, drain faucet, wheels, comfort-grip handles

FEATURE HIGHLIGHTS

Comfort-Grip Handle
maneuvering

Durable Filter Bag Basket
Supports solid separation

Spacious Tank
Large-capacity for
water/solids

Secure Holding Band
Stabilises filter bag

Sturdy Wheels
Durable, smooth-rolling
mobility

Convenient Drain Faucet
Easy water draining

HOW IT WORKS

KEY BENEFITS

Lightweight &
Easy to Use

Up to 50 L
Reclaimed Water
Capacity

Efficient
Solid-Liquid
Separation
